1. Medical Release

I understand and agree that Camps Newfound-Owatonna are for families and children who practice Christian Science and rely on it for healing. The camps do not provide medical care on the premises or administer drugs. Under Maine law and according to American Camping Association (ACA) regulations, drugs, even aspirin, for example, can only be administered by a registered nurse. To the best of my knowledge and belief, we are in normal good health and are free from communicable diseases. I release and forever discharge the camp and each and every one of its officers, directors, employees, insurers, or any other person(s) associated with any or all of them or any variation in the name of any or all of them who might be liable (the "Released Parties") from all causes of action, suits, claims, demands, or any other damages or costs associated with actions taken by the Released Parties relative to the camp policy of not providing medical treatment. I represent and acknowledge that I have read and understand this agreement. I further warrant and acknowledge that I am of legal age, legally competent to execute this agreement, and release and accept full responsibility therefore.
